Muhammad Abubakar Maqsood

Prospective MS/MPhil applicant | Computer Science & AI | Burewala, Pakistan

Email: abubakarbhatti052@gmail.com | GitHub: github.com/abubakar-maqsood | Portfolio: abubakarnaqsood-portfolio.netlify.app

ACADEMIC PROFILE

BS Information Technology graduate (2025, CGPA 3.53/4.00) preparing for research-oriented graduate study. Current interests include trustworthy AI, language-model evaluation, uncertainty and evidence reliability. Developing research skills through independent Python notebooks, experiments and technical documentation.

EDUCATION

BS Information Technology | University of Agriculture Faisalabad, Sub-Campus Burewala | 2025
CGPA: 3.53 / 4.00

Bachelor of Education | CGPA: 3.05 / 4.00

Related coursework: Programming Fundamentals, OOP, Data Structures, Database Systems, Software Engineering, Web Technologies, Computer Networks, Operating Systems, Information Security.

RESEARCH INTERESTS (PROPOSED)

Evidence-aware LLM responses; uncertainty and appropriate abstention; model evaluation; data quality; reproducible testing. Research concept: evaluate how a language-model workflow can detect incomplete or contradictory evidence and choose to answer, verify or abstain. This is a proposed direction, not an accepted or published thesis.

SELECTED PROJECTS

- AquaSense AI | Python / NumPy / Google Colab — Learning notebook exploring water-quality data, missing values, preprocessing and introductory model-evaluation workflows.
- Portable Water-Quality Monitoring System | Undergraduate final-year project — Academic prototype capturing pH, turbidity, TDS and temperature readings; motivated questions about data reliability.
- ShelfAudit | AI-assisted SaaS prototype — Early Shopify store-audit dashboard prototype; product exploration, not a validated research or production AI system.

TECHNICAL PREPARATION

Programming/software: JavaScript, HTML/CSS, Shopify/Liquid, Git/GitHub, REST/JSON fundamentals, SQL basics.
Learning/research: Python (learning), NumPy, Google Colab, applied ML concepts, data preprocessing, evaluation, LLM reliability and experiment documentation.

PROFESSIONAL EXPERIENCE

Fusion Funky | Frontend & E-commerce Development | July 2025 – Present
Responsive interfaces, storefront improvements, debugging, SEO and client-facing project delivery.

COURSEWORK & ADDITIONAL INFORMATION

Prompt Engineering | Coursera online course (completion/certificate not claimed).
Publications: None claimed. Current goal: research-oriented MS/MPhil admission, with a long-term goal of PhD research.
